29 January 2016

Dear Parents and Caregivers,

A warm welcome back to all our wonderful families who are with us again and to all new families who are joining our school community this year. It was so wonderful to see students return to school after the holidays looking relaxed, happy, eager to meet with friends and ready for learning. We look forward to an exciting year ahead at Eastlakes Public School.

The school structure and formation of classes is constrained by the Department of Education’s staffing formula. We were aiming to have students in their classes by Friday afternoon but there are some complexities we have to take into account such as student numbers across grades, waiting for students to return and any unknown arrivals and departures of students. We will be confirming enrolment numbers next week and students will be placed in their 2016 classes.

A reminder that school starts at 9am and finishes at 3pm. Students are not to be at school prior to 8.30am and must leave directly after school at 3pm. Parents who are unable to provide care for their child outside of school hours should enrol their children at SMOOSH Eastlakes @Eastlakes Public School (0431427176) or make other private arrangements.

Regards,

Anthia Tsantoulis
Principal Eastlakes Public School
